Lab 08

Linear regression

Shawn Santo

Today's goals

- Assess the strength of linear relationships from scatterplots
- Fit linear models
- Interpret linear model results
- Make predictions
- Conduct inference on model coefficients

Lab 08

- A team repo has already been created for you and your teammates. Navigate to https://github.com/sta199-sp21-003 and look for your repo named `lab_08-<team name>`.
- If no one from your team is here, let your TAs know once they are done explaining the lab.
- The directions are available on the course website at http://www2.stat.duke.edu/courses/Spring21/sta199.003/labs/lab_08.html.
- This is a team-based lab.
