Duke University
STA213: Introduction to Statistical Methods, Fall 2002
Midterm Exam

Instructions

1. The STA213 Midterm examination will be held on:

   Friday October 25, 2002 (Week 9)
   6:00 to 8:00 pm
   Room 130, Biological Sciences Building

2. The exam will last 2 hours.

3. The Biological Sciences Building is located on Science Drive, next to the Physics Building. Room 130 is on the right hand side of the main entrance to the Biological Sciences Building.

4. The syllabus for the examination is all the material covered in lectures and assignments during weeks 1 to 7 on the topics: univariate distribution theory, multivariate distribution theory, and properties of random samples (up to the end of section 3.3).

5. The exam is closed book, but you may bring 2 letter sized sheets of paper, written on both sides, into the examination.

6. You should also bring

   Your student ID card, with your photo on it
   A calculator
