

Curriculum Vitae
Michael Lavine

Box 90251
Duke University
Durham, NC 27708-0251
(919) 684-2152
michael@stat.duke.edu

EDUCATION

Ph.D. 1987, Statistics, University of Minnesota

M.A. 1977, Mathematics, Dartmouth College

B.A. 1974, Mathematics, Beloit College

PROFESSIONAL EXPERIENCE

2001 – present Professor, Institute of Statistics and Decision Sciences Duke University

2001 – 2006 Professor, Nicholas School of Earth and Ocean Sciences, Duke University

2000 – present Member, University Program in Ecology, Duke University

2000 Visiting Associate Professor, Department of Biometrics, Cornell University

1995 – 2001 Associate Professor, Nicholas School of Earth and Ocean Sciences, Duke University

1994 – 2001 Associate Professor, Institute of Statistics and Decision Sciences Duke University

1991 – 1992 Visiting Assistant Professor, Department of Statistics, Carnegie Mellon University

1987 – 1994 Assistant Professor, Institute of Statistics and Decision Sciences, Duke University

1983 – 1987 Teaching Assistant, School of Statistics, University of Minnesota

1978 – 1981 Reasearch Assistant, Center for Energy and Environmental Studies, Princeton University

1975 – 1977 Teaching Assistant, Department of Mathematics, Dartmouth College

BOOKS AND CHAPTERS

1. 2007, one of many contributing authors, *Climate Change 2007 The Physical Science Basis: Contribution of Working Group I to the Fourth Assessment Report of the Intergovernmental Panel on Climate Change*, Solomon, Susan; Qin, Dahe; Manning, Martin; Marquis, Melinda; Averyt, Kristen; Tignor, Melinda M. B.; Miller, Henry LeRoy Jr; and Chen, Zhenlin (eds.), Cambridge University Press.
2. 2004, Lavine, M., **Introduction to Statistical Thought**, free internet publication.
3. 2001, Clark, J. S. and Lavine, M., *Bayesian statistics in ecology*, in **Design and Analysis of Ecological Experiments**, S.M. Scheiner and J. Gurevitch (eds), Oxford Univ Press.
4. 2000, Lavine, M., Perone Pacifico, M., Salinetti, G. and Tardella, L., *Linearization Techniques in Bayesian Robustness*, in **Robust Bayesian Analysis**, D. Rios Insua and F. Ruggeri eds., Springer-Verlag, Lecture Notes in Statistics.
5. 1998, *Uncertainty Analysis in Ecological Risk Assessment. Proceedings from the Pellston Workshop on Uncertainty Analysis in Ecological Risk Assessment*, Warren-Hicks, W.J., Moore, D.R.J., Appling, J.W., Barry, T., Barton, A., Chapman, P., Cirone, P., Clark, J., Cothorn, K., Cowan, C., Cox, D., Crocket, T., Dickson, G., Dorward-King, E., Farrar, D., Ferson, S., Gilbert, R., Hacker, C., Landis, W., Lavine, M., Levin, L., Macfarlane, M., Mattice, J., Miller, J., Norton, S., Parkhurst, B., Pastorok, R., Power, M., Rodier, D., Schaeffer, D., Smith, E., Suter Jr., G., Valoppi, L., van Leeuwen, C., Viteri, A., Williams, B., Warren-Hicks, W.J. and Moore, D.R.J., eds., Society of Environmental Toxicology and Chemistry, Pensacola, FL.

REFEREED ARTICLES

1. 2007, Richter D., Hofmockel M. and M Lavine, *Effects of elevated CO₂ on canopy interception of precipitation*. **Global Change Biology**, in prep.
2. 2007, Bonnie E. Lai, Yao Quan Xie, Michael L. Lavine, Andrew J. Szeri, Derek H. Owen, and David F. Katz, *Dilution of microbicide gels with vaginal fluid and semen simulants: effect on rheology and coating flow*, **Journal of Pharmaceutical Sciences**, in press.
3. 2007, Scotland C. Leman, Marcy K. Uyenoyama, Michael Lavine, and Yuguo Chen, *The Evolutionary Forest Algorithm*, **Bioinformatics**, doi: 10.1093/bioinformatics/btm264.
4. 2007, Neung-Hwan Oh, Michael Hofmockel, Michael Lavine, and Daniel Richter, *Did Elevated Atmospheric CO₂ Alter Soil Mineral Weathering?: An Analysis of Five-Year Soil Water Chemistry Data at Duke FACE Study*, **Global Change Biology**, **13**, 2626–2641.
5. 2007, Ana Rappold, Michael Lavine, and Susan Lozier, *Subjective Likelihood for the Assessment of Trends in the Ocean's Mixed-Layer Depth*, with Comments and Rejoinder, **JASA**, **102**, 771–787.
6. 2007, Marcus H. Henderson, Grace M. Couchman, David K. Walmer, Jennifer J. Peters, Derek H. Owen, Matthew A. Brown, Michael L. Lavine, and David F. Katz, *Optimal imaging and analysis of human vaginal coating by drug delivery gels*, **Contraception**, **75**, 142–151.
7. 2006, J.R. Stapleton, M.L. Lavine, R.L. Wolpert, M.A.L. Nicolelis, and S.A. Simon, *Rapid Taste Responses in the Gustatory Cortex During Licking*, **Journal of Neuroscience**, **26**(15), 4126–4138.
8. 2005, R.F. Shore, D.R. Crocker, H.R. Akcakaya, R.S. Bennett, P.F. Chapman, M. Clook, M. Crane, I.C. Dewhurst, P.J. Edwards, A. Fairbrother, S. Ferson, D. Fischer, A.D.M. Hart, M. Holmes, M.J. Hooper, M. Lavine, A. Leopold, R. Luttik, P. Mineau, D.R.J. Moore, S.R. Mortenson, D.G. Noble, R.J. O'Connor, W. Roelofs, R.M. Sibly, G. C. Smith, M. Spendiff, T. A. Springer, H.M. Thompson, C. Topping,

Case Study Part 1: How to Calculate Appropriate Deterministic Long-Term Toxicity to Exposure Ratios (TERs) for Birds and Mammals, **Ecotoxicology**, Dec. 2005, 1–17.

9. 2005, W. Roelofs, D.R. Crocker, R.F. Shore, D.R.J. Moore, G.C. Smith, H.R. Akcakaya, R.S. Bennett, P.F. Chapman, M. Clook, M. Crane, I.C. Dewhurst, P.J. Edwards, A. Fairbrother, S. Ferson, D. Fischer, A.D.M. Hart, M. Holmes, M.J. Hooper, M. Lavine, A. Leopold, R. Luttik, P. Mineau, S.R. Mortenson, D.G. Noble, R.J. OConnor, R.M. Sibly, M. Spendiff, T.A. Springer, H.M. Thompson, C. Topping *Case Study Part 2: Probabilistic Modelling of Long-term Effects of Pesticides on Individual Breeding Success in Birds and Mammals*, **Ecotoxicology**, Dec. 2005, 18–29.
10. 2005, Ballantyne, A. P., Lavine, M., Crowley, T. J., Liu, J., and Baker, P. B., *Meta-analysis of tropical surface temperatures during the Last Glacial Maximum*, **Geophysical Research Letters**, **32**, L05712, doi:10.1029/2004GL021217.
11. 2005, De Iorio, M. and Lavine, M., *Intrinsic Autoregressions at Multiple Resolutions*, **JSPI** **134**, issue 1, September 2005, 102–115.
12. 2004, Ribeiro, S. Gervasoni, D., Soares, E., Zhou, Y., Lin, SC., Pantoja, J., Lavine, M. and Nicolelis, M. *Long-Lasting Novelty-Induced Neuronal Reverberation during Slow-Wave Sleep in Multiple Forebrain Areas*. **PLoS Biology** **2(1)**: e24.
13. 2003, Qian, Song S. and Lavine, M., *Setting Standards for Water Quality in the Everglades*, **CHANCE**, 10–16.
14. 2003, Owen D.H., Peters J.J., Lavine M.L. and Katz D.F., *Effect of temperature and pH on contraceptive gel viscosity*, **Contraception**, **67**, 57–64
15. 2003, Calder, C.A., Lavine, M., Muller, P. and Clark, J.S., *Incorporating Multiple Sources of Stochasticity in Dynamic Population Models*, **Ecology**, **84**, 1395–1402.
16. 2003, Paddock, S., Ruggeri, F., Lavine, M. and West, M., *Randomised Polya Tree Models for Nonparametric Bayesian Inference* **Statistica Sinica**, **13(2)**, 443–460.

17. 2003, Lavine, M., *Discussion of Could Fisher, Jeffreys and Neyman Have Agreed on Testing?*, **Statistical Science** **18(1)**, 16–18.
18. 2002, Lavine, M., *A Marginal Ergodic Theorem*, **Seventh Valencia International Meeting on Bayesian Statistics**, pp. 577–585.
19. 2002, Lavine, M., Beckage, B. and Clark, J., *Statistical Modelling of Seedling Mortality*, **Journal of Agricultural, Biological and Environmental Statistics**, **7**, 21–41.
20. 2001, Casella, G., Lavine, M. and Robert, C., *Explaining the Perfect Sampler* **The American Statistician**, **55**, 299–305.
21. 2000, Jagdish Krishnaswamy, Michael Lavine, Daniel D. Richter and Karl Korfmacher, *Dynamic modeling of long term sedimentation in the Yadkin River Basin*, **Advances in Water Resources**, **23**, 881–892.
22. 2000, Lichter, J., Lavine, M., Mace, K. A., Richter, D. D. and Schlesinger, W. H. *Throughfall chemistry in loblolly pine plantation under elevated atmospheric CO₂ concentrations*, **Biogeochemistry**, **50**, 73–93.
23. 2000, Qian, S. and Lavine, M., *Univariate Bayesian nonparametric binary response regression application in environmental management*, **Environmental and Ecological Statistics**, **7**, 77–91.
24. 1999, Lavine, M., *What is Bayesian Statistics and Why Everything Else is Wrong*, **The Journal of Undergraduate Mathematics and Its Applications**, **20**, 165–174.
25. 1999, Evan DeLucia, Jason Hamilton, Shawna Naidu, Richard Thomas, Jeffrey Andrews, Adrien Finzi, Michael Lavine, Roser Matamala, Jacqueline Mohan, George Hendrey and William Schlesinger, *Net Primary Production of a Forest Ecosystem under Experimental CO₂ Enrichment*, **Science**, **284**, 1177–1179.
26. 1999, Lavine, M. and Lozier, S., *A Markov Random Field Spatio-temporal Analysis of Ocean Temperature*, **Environmental and Ecological Statistics**, **6**, 249–273.
27. 1999, Lavine, M. and Schervish, M., *Bayes Factors: what they are and what they are not*, **The American Statistician**, **53**, 119–122.

28. 1999, Lavine, M., *Another Look at Conditionally Gaussian Markov Random Fields*, **Bayesian Statistics 6**, Bernardo, Berger, Dawid and Smith, eds., 371–387.
29. 1999, Lavine, M. *The ‘Bayesics’ of Ranked Set Sampling*, **Environmental and Ecological Statistics**, **6**, pp47–57.
30. 1997, Wolpert, R. and Lavine, M., *Markov Random Field Priors for Univariate Density Estimation*, in **Proceedings of the Second International Workshop on Bayesian Robustness**, F. Ruggeri and G. Salinetti, eds., Institute of Mathematical Statistics Press, Hayward, CA.
31. 1996, Lavine, M., *Monte Carlo and Bayesian Statistics*, **Human and Ecological Risk Assessment**, **2** , 666–670.
32. 1995, Lavine, M., *On an approximate likelihood for quantiles*, **Biometrika**, **82**, 220–222.
33. 1995, Lavine, M. and Mockus, A., *A Nonparametric Bayes Method for Isotonic Regression*, **Journal of Statistical Planning and Inference**, **46**, 235–248.
34. 1995, Garth Bissette, Dan Griff, Molly Carnes, Michael Lavine, Brian Goodman and Beth Levant *Apparent Seasonal Rhythms in Hypothalamic Neuropeptides in Rats without Photoperiod Changes*, **Endocrinology**, **136**, 622–628.
35. 1994, Lavine, M., *More Aspects of Polya Tree Distributions for Statistical Modelling*, **Annals of Statistics**, **22**, 1161–1176.
36. 1994, Lavine, M., *An Approach to Evaluating Sensitivity in Bayesian Regression Analyses*, with discussion and reply, **Journal of Statistical Planning and Inference**, **40**, pp. 242–244.
37. 1993, Lavine, M., Wasserman, L. and Wolpert, R., *Linearization of Bayesian Robustness Problems*, **Journal of Statistical Planning and Inference**, **37**, pp. 307–316.
38. 1992, Banks, D. and Lavine, M., *The Minimal Spanning Tree for Non-parametric Regression and Structure Discovery*, **Computing Science and Statistics**, **24**, 370–374.

39. 1992, Lavine, M., *A Note on Bounding Monte Carlo Variances*, **Communications in Statistics, Part A – Theory and Methods**, **21**, #10, pp. 2855–2860.
40. 1992, Lavine, M., *Some Aspects of Polya Tree Distributions for Statistical Modelling*, **Annals of Statistics**, **20**, pp. 1222–1235.
41. 1992, Lavine, M. and West, M., *A Bayesian Method for Classification and Discrimination*, **The Canadian Journal of Statistics**, **20**, pp. 451–461.
42. 1992, Pfister, Charles, Harrington, Brian A. and Lavine, M., *The impact of human disturbance on shorebirds at a migration staging area*, **Biological Conservation**, **60**, pp. 115–126.
43. 1992, Lavine, M., *Local Predictive Influence in Bayesian Linear Models with Conjugate Priors*, **Communications in Statistics, Part B – Simulation and Computation**, **21**, pp. 269–283.
44. 1991, Lavine, M., *Problems in Extrapolation Illustrated With Space Shuttle O-Ring Data*, **Journal of the American Statistical Association**, **86**, pp. 919–921.
45. 1991, Lavine, M., Wasserman, L. and Wolpert, R., *Bayesian Inference with Specified Prior Marginals*, **Journal of the American Statistical Association**, **86**, pp. 964–971.
46. 1991, Lavine, M., *An Approach to Robust Bayesian Analysis for Multidimensional Parameter Spaces*, **Journal of the American Statistical Association**, **86**, pp. 400–403.
47. 1991, Lavine, M., *Sensitivity in Bayesian Statistics: The Prior and the Likelihood*, **Journal of the American Statistical Association**, **86**, pp. 396–399.
48. 1991, Gorback, M. S., Quill, T. J. and Lavine, M., *The Relative Accuracies of Two Automated Noninvasive Arterial Pressure Measurement Devices*, **Journal of Clinical Monitoring**, **7**, pp. 13–22.
49. 1986, M. Fels, M. Goldberg and M. Lavine, *Exploratory Scorekeeping for Oil-heated Houses*, **Energy and Buildings**, **9**, 127–136.

7. 1980, J. Darley, M. Fels, M. Goldberg, M. Lavine and R. Socolow *Scorekeeping for Retrofits: Issues Pertinent to the Management of the 1000 House Pilot Project in Lakewood, NJ*, **Report 106**, Center for Energy and Environmental Studies, Princeton University, Princeton, NJ.

INVITED TALKS

1. 2007, *Subjective Likelihood for the Assessment of Trends in the Ocean's Mixed-Layer Depth*, Department of Biostatistics, Johns Hopkins School of Public Health.
2. 2007, *Spike Trains and Human Brains*, Department of Mathematics and Computer Science, Beloit College.
3. 2007, *Spike Trains and Human Brains*, Department of Mathematics and Statistics, University of Massachusetts.
4. 2006, *Subjective Likelihood for the Assessment of Trends in the Ocean's Mixed-Layer Depth*, Department of Mathematics and Statistics, University of Vermont.
5. 2006, *Subjective Likelihood for the Assessment of Trends in the Ocean's Mixed-Layer Depth*, Department of Mathematics and Statistics, University of Massachusetts.

6. 2006, *Subjective Likelihood for the Assessment of Trends in the Ocean's Mixed-Layer Depth*, Department of Statistical Science, Cornell University.
7. 2005, *An Assessment of Climate Change in the Ocean*, Case Studies in Bayesian Statistics Workshop 8.
8. 2005, *An Assessment of Climate Change in the Ocean, Mixed-Layer Depth, and Subjective Likelihood*, OBayes5 - The Fifth International Workshop on Objective Bayes Methodology.
9. 2005, *Paternity Testing for Baboons and Biologists*, Department of Mathematics and Statistics, Swarthmore College.
10. 2004, *Paternity Testing for Baboons and Biologists*, Department of Mathematics and Statistics, UNC-W.
11. 2004, *Paternity Testing for Baboons and Biologists*, SRCOS summer research conference, Virginia Tech University.
12. 2003, *An Assessment of Climate Change in the Ocean*, The Mu Sigma Rho Society, Virginia Tech University.
13. 2003, *An Assessment of Climate Change in the Ocean*, Department of Statistics, The Pennsylvania State University.
14. 2003, *An Assessment of Climate Change in the Ocean*, School of Statistics, University of Minnesota.
15. 2003, *An Assessment of Climate Change in the Ocean*, Department of Statistics, Iowa State University.
16. 2002, *Statistical Modelling of Seedling Mortality*, Department of Statistics, Florida State University.
17. 2002, *A Marginal Ergodic Theorem*, Department of Statistics, University of British Columbia.
18. 2002, *A Marginal Ergodic Theorem*, Department of Statistics, Iowa State University.

19. 2002, *A Marginal Ergodic Theorem*, Los Alamos National Laboratory Statistics Group, Los Alamos, New Mexico.
20. 2001, *A Marginal Ergodic Theorem*, Department of Statistics, University of North Carolina, Chapel Hill.
21. 2001, *The Climatology and Climatic Variability of the North Atlantic*, IMS mini-meeting on Statistical Approaches to the Ocean Circulation Inverse Problem, Florida State University.
22. 2001, *A Marginal Ergodic Theorem*, ISDS, Duke University.
23. 2001, *P-values and Hypothesis Tests*, University Program in Ecology, Duke University.
24. 2001, *Statistical Modelling of Seedling Mortality*, Department of Statistics, North Carolina State University.
25. 2001, *Statistical Modelling of Seedling Mortality*, Department of Statistics and Actuarial Science, University of Iowa.
26. 2001, *Statistical Modelling of Seedling Mortality*, Department of Mathematics and Statistics, University of Nebraska.
27. 2001, *What is Bayesian Statistics and Why Everything Else is Wrong*, Pacific Northwest National Laboratory.
28. 2001, *Statistical Modelling of Seedling Mortality*, Department of Mathematics and Statistics, University of Otago.
29. 2001, *What is Bayesian Statistics and Why Everything Else is Wrong*, Department of Mathematics and Statistics, University of Otago.
30. 2000, *What is Bayesian Statistics and Why Everything Else is Wrong*, Department of Biometry, Cornell University.
31. 2000, *Statistical Modelling of Seedling Mortality*, Department of Biometry, Cornell University.
32. 2000, *Another Look at Conditionally Gaussian Markov Random Fields*, Department of Statistics, Cornell University.

33. 1999, *The Bayesics of Gibbs Sampling*, American Sociological Association, Methodology Section, Durham, NC.
34. (1999) *What is Bayesian Statistics and Why Everything Else is Wrong*, Beloit College.
35. 1999, *What is Bayesian Statistics and Why Everything Else is Wrong*, Grinnell College.
36. 1999, *Another Look at Conditionally Gaussian Markov Random Fields*, Department of Statistics, University of Wisconsin — Madison.
37. 1999, *Another Look at Conditionally Gaussian Markov Random Fields*, Department of Statistics, Iowa State University.
38. 1998, *Another Look at Conditionally Gaussian Markov Random Fields*, Department of Operations Research, The George Washington University.
39. 1998, *Ocean Temperatures from A(frica) to B(ahamas)*, Department of Statistics, Harvard University.
40. 1998, *Another Look at Conditionally Gaussian Markov Random Fields*, Sixth Valencia International Meeting on Bayesian Statistics.
41. 1998, *What is Bayesian Statistics and Why Everything Else is Wrong*, Aha Huliko'a Hawaiian Winter Workshop in Oceanography, University of Hawaii, Manoa.
42. 1997, *What is Bayesian Statistics and Why Everything Else is Wrong*, Theory Group, Department of Physics, Duke University.
43. 1997, *Ocean Temperatures from A(frica) to B(ahamas)*, Department of Statistics and Probability, Michigan State University.

55. 1988, *Robust Bayesian Analysis with Periparametric Priors*, at the NBER–SBIE meetings, April.

CONTRIBUTED TALKS

1. 2002, *A Marginal Ergodic Theorem*, poster session at the Valencia meetings.
2. 2001, *What is Bayesian Statistics and Why Everything Else is Wrong*, North Carolina School of Science and Mathematics.

3. 1997, *What is Bayesian Statistics and Why Everything Else is Wrong*, Department of Statistics and Probability, Michigan State University.
4. 1997, *Bayes Factors: what they are and what they are not*, Joint Statistical Meetings; Anaheim, CA.
5. 1996, *Ocean Temperatures from A(frica) to B(ahamas)*, Modelling longitudinal and spatially correlated data: methods, applications and future directions, Nantucket, Massachusetts.
6. 1995, *SIM City: Reconstructing the Demographics*, SPRUCE III, Merida, Mexico.
7. 1994, *On Bayesian Analysis of Wavelets*, Annual Meeting of ASA, IMS, Biometric Society.
8. 1994, *Discussion of Session on Bayesian Robustness*, Annual Meeting of ASA, IMS, Biometric Society.
9. 1993, *Nonparametric Bayesian Inference for Quantiles*, Annual Meeting of ASA, IMS, Biometric Society.
10. 1993, *Discussion of Session 68 on Robust Bayesian Statistics*, Annual Meeting of ASA, IMS, Biometric Society.
11. 1993, *Bayesian Inference for Isotone Regression* Meeting of the International Society for Bayesian Analysis, San Francisco.
12. 1991, *Some Aspects of Polya Tree Distributions for Statistical Modelling*, poster session at the Valencia meetings.
13. 1991, *Some Aspects of Polya Tree Distributions for Statistical Modelling*, poster session at the NBER-SBIE meetings.
14. 1990, *Local Predictive Influence*, at the NBER-SBIE meetings.

MAJOR GRANTS

1. 2002–2006 PI, *Ocean Circulation*, NSF, \$289,500
2. 1995–2004 Co-PI, *Forest-Atmosphere Carbon Transfer and Storage* DOE, \$6,249,804

3. 1993–1996 PI, *Polya Trees for Nonparametric Bayesian Analysis*, NSF, \$60,000

COURSES TAUGHT

1. Statistics 10: A one semester, noncalculus introductory statistics course
2. Statistics 103: A one semester, calculus based introductory statistics course
3. Statistics 110: A one semester, noncalculus introductory statistics course
4. Statistics 200: A course in probability and mathematical statistics for graduate students and advanced undergraduates.
5. Statistics 114/Math 136: The second semester of a year's course in probability and statistics for math majors.
6. Statistics 213: A one semester course in statistical theory for graduate students.
7. Statistics 242/FES 350: Linear regression for environmental studies graduate students.
8. Statistics 290: Statistical laboratory for incoming graduate students.
9. Statistics 291: Independent study in classical robustness.
10. Statistics 292: Independent study in Bayesian nonparametrics.
11. Statistics 293: Nonparametric Bayesian methods and topics in stochastic processes.
12. Statistics 293: Time Series in the time domain.
13. Statistics 293: Unsolvable problems.
14. Statistics 356: Time Series
15. Statistics 390: Statistical Consulting.
16. Statistics 395: Readings in Statistical Science

17. Statistics 36-225, 36-226: Introduction to Probability and Statistics — a two-semester sequence in mathematical statistics at the level of Larsen and Marx.
18. Statistics 36-906: Nonparametric Bayesian analysis concentrating on Dirichlet processes and Polya trees.
19. Biology 266: Statistical analysis of ecological data.
20. CGC seminar: ecological forecasting

MEMBERSHIPS

1. ASA
2. IMS
3. ISBA

THESES SUPERVISED

1. Fabrizio Ruggeri, PhD
2. Luca Tardella, PhD
3. Maria De Iorio, PhD
4. Catherine Calder, PhD
5. Ana Rappold, PhD
6. Song Qian, MS
7. Conrad Lamon, MS
8. Jagdish Krishnaswamy, MS
9. Norris Bruce, MS
10. Ning Li, MS
11. Guoqiang Yang, MS

12. Yang (Claire) Yang, MS

13. Qing (Jessie) Xia, MS

CURRENT DOCTORAL COMMITTEES

Chair 3: Floyd Bullard, Zhenglei Gao, Eric Vance

Member 7: Erkan Acar *Electrical and Computer Engineering*, Catarina Moura *Ecology*, Dawn Woodard *Statistics*, Jianwei Li *Environment*, Quanlin Li *Environment*, Gavino Puggioni *Statistics*, Kathryn Sharpe *Business*

PROFESSIONAL ACTIVITIES

1. Executive Editor, **Chance**, 2005 – 2007
2. Editor, **Ecology & Ecological Monographs**, 2004 – present
3. Associate Editor, **JSPI**, 2004 – present
4. Associate Editor, **JASA**, 2003 – 2006
5. Associate Editor, **Environmental and Ecological Statistics**, 2003 – present
6. member, review panel for NSF's CMG panel
7. member, Science Advisory Panel to EPA's ECOFRAM, 1999
8. Associate Editor, **Biometrics**, 1997 – 2000
9. review panel member for NSF regional conferences
10. organizing a meeting session for the Bayesian section of the ASA
11. review panel member for the Conference Board of Mathematical Sciences
12. member of the Scientific Committee of the second annual ISBA meeting

PROFESSIONAL HONORS

1. Fellow, ASA

UNIVERSITY SERVICE

1. member Undergraduate Judicial Board, 2005 – present
2. member Academic Council, 2005 – present
3. member Faculty Research Council, 2002 – 2005
4. member Executive Committee of the Center on Global Change, 2001 – 2004
5. member Faculty Compensation Committee, 2000 – present; chair 2003 – present
6. member Executive Committee of the Arts and Sciences Council, 1998 – 1999; 2003 – 2004
7. Faculty Associate, 1995 – 1997
8. Pre-Major Advisor, 1995 – 1999
9. Director of Graduate Studies, 1995 – 1999
10. member Arts and Sciences Council, 1993 – 1999; 2003 – present
11. member Executive Committee of the Graduate Faculty, 1994 – 1998
12. consulting, 1987 – present
